

8 CHANNEL AUDIO TRANSMITTER/RECEIVER

FTA/FRA-108S

In the condition of middle and large size installation of distributed broadcasting which has limited solution by long distance, FTA/FRA-108S is the solution to send the Audio & Data using fiber optic cable.

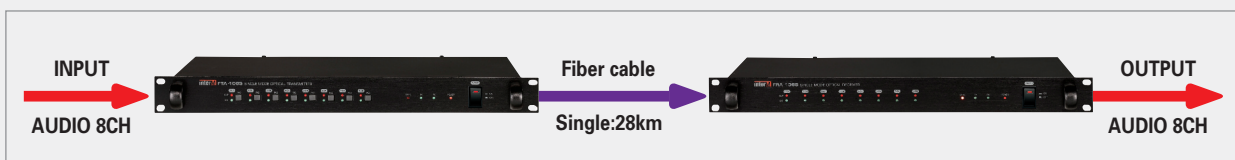

FEATURES

- ❖ Fiber Optic transmission and Receiver (8CH audio)
- ❖ Max Distance : 28Km (single mode)
- ❖ General-purposed SC Type optical connector
- ❖ Data communication (Contact point : 8CH, Serial port : RS-422/RS-232C)
※ Optional module : CT-100M/CR-100M
- ❖ Full Duplex Operation Mode
- ❖ AC 220V, DC 24V, 1U Rack size

SPECIFICATIONS

	FTA-108S	FRA-108S
Fiber Type	Single Mode	
Connector Type	SC Type	
Wavelength(nm)	1310/1550(TX)	1550/131/(RX)
Operation Mode	Full Duplex	
Distance(Max)	28 Km	
Data Rate	1KHz(min) ~ 100MHz(Max)	

APPLICATION

* Specifications and design are subject to change without notice.
