

Release Notes. DWG 2D CAD package V 1.3

12/2023

Page: 1 / 7

Description of content

This collection represents all 2D CAD models that are currently available for public release. Whatever is not in this collection is either not available at all (e.g., legacy products) or it is not available yet, because it pertains to a product that has been released so recently that the CAD collection has not been updated yet. In any case, the only source for d&b DWG/CAD data is this collection. We will update it continuously as soon as more/new data is available.

We have generated 2D models for all loudspeakers individually. All 2D models are available in AutoCAD 2013 and AutoCAD 2018 format to maximize compatibility with common third-party CAD software.

Intended use

The CAD files in this library are intended to be used for accurate technical visualizations of d&b products and provide accurate data of mounting points for which third-party mounting accessories are permitted. We have omitted proprietary mounting points and simplified constructional details that are not relevant to the purpose of these files for product liability and IP reasons. Should you require a customized mounting solution that uses these proprietary mounting points, please contact your d&b representative to initiate the appropriate design process through our mechanical engineering department.

Release Notes. DWG 2D CAD package V 1.3

12/2023

Page: 2 / 7

Changes from version 1.2 to 1.3

- Released 09/2023
- Added: XSL-SUB, XSL-GSUB, XSL8-12 Top, XSLi8-12 Top, KSL8-12, KSLi8-12, KSL SUB, KSL GSUB.
- Added 40D Amplifier.

Release Notes. DWG 2D CAD package V 1.3
